SOCIAL PROGRAM

TUESDAY, JUNE 26th
GUIDED TOUR AND DINNER

The Museo del Violino. The Museo del Violino is hosted in Cremona in Palazzo dell'Arte. After being used for military purposes in the last months of the war, the building hosted exhibitions, musical evenings and charity events until the 1960s. It is interesting to note that between May and July 1949 part of the celebrations marking the 300th anniversary of the birth of Stradivarius were held here. Only a few years later, on 30th April 1957, part of the building was assigned to the Violinmaking School where whole generations of craftsmen were trained until 2010.
Auditorium. The culture of excellence, which from its early steps has guided the realization of the Museo del Violino is perfectly synthesized in the Giovanni Arvedi Auditorium. The Auditorium, the only one of its kind and the outstanding result of a daring and modern project, was coordinated by the architects Giorgio Palù and Michele Bianchi with the support of the acoustical engineer Yasuhisa Toyota for the optimization of the acoustics, and reaffirms and exalts Cremona's role at an international level as the capital of violinmaking and music.

THURSDAY, JUNE 28th
TYPICAL SOCIAL DINNER

The social dinner will be at **"Locanda Torriani"** Restaurant which is located nearby the Cathedral. Tradition, innovation, creativity. These are the ingredients of the cuisine. Close to the territory and its history, our offer proposes a contemporary and personal interpretation of the best Cremonese gastronomic tradition. The typical recipes of the local cuisine are re-proposed with imagination and taste for the innovation, meeting the satisfaction of the enthusiasts of the tradition and of the most sophisticated gourmets. An original mark that goes well with the attention for the dish presentation, pointing out the pleasure for tasting that passes through the palate and the eyes.
